KEEP EXPERIENCED LEADERSHIP

I have been a Member of the G-555 Union for 16 years, and an Akron District Union Representative for 5 years.

I started my career in the Call Center (now the ISC), moved to FMS out of Wilbeth Shop, and now work as a Relocation Designer in the Springside Engineering Shop.

Given my diverse background, I feel that I am uniquely positioned to advocate for the Members of Springside. I have used this knowledge to work as a rep for many years, and helped to successfully get an MOU signed for the Inspectors where over 50% of them saw an immediate pay raise and all of them will achieve top rate in half the time it used to take.

I am committed to pushing for similar improvements for other groups within Springside, and if I am re-elected, will continue working towards that goal.
